

South Africa's Verified LPG Delivery Network

A compliance-first digital platform connecting licensed LPG operators
with customers for safe, on-demand gas cylinder delivery.

ON-DEMAND DELIVERY

LICENSED OPERATORS

CARD-ONLY PAYMENTS

Seed Round Investment Opportunity — 2026

LPG Distribution in South Africa is Broken

Millions of South African households depend on LPG gas, yet the delivery experience remains fragmented, unsafe, and inconvenient.

Ø=Þ# Inconvenient Access

Customers must drive to depots or petrol stations with heavy cylinders. No reliable home delivery exists.

& Safety Concerns

Unregulated informal sellers transport LPG without dangerous goods permits, creating community risks.

Ø=Ü° Cash-Only, No Accountability

Most transactions are cash-based with no receipts, no tracking, and inconsistent pricing.

Ø=Þš Operators Lack Reach

Licensed LPG operators have no digital channel. They lose business to unregulated competitors.

Gaslite: The **Uber for Gas** — Built on Compliance

A PWA connecting customers with licensed, verified LPG operators for safe, trackable, card-only gas cylinder delivery.

Ø=Üñ Order in Seconds

Browse 9kg, 19kg, 48kg cylinders. Pay by card, track delivery live.

' Verified Operators

Dangerous goods licences and vehicle compliance verified.

Ø=Üí Live GPS Tracking

Uber-style real-time map tracking from pickup to delivery.

Ø=Ü³ Card-Only Payments

Visa, MC, Amex, Apple Pay, Google Pay via Yoco. Fully traceable.

Ø=Ý Instant Notifications

Push notifications, in-app chat, and email confirmations.

Ø=Ý POPIA Compliant

South African data protection built in from the ground up.

Simple for Customers, Powerful for Operators

5

Delivered

For Customers

Browse products, place orders, track deliveries live, chat with operators, receive push notifications and email receipts.

For Operators

Go online to receive orders, one-tap navigation, earnings dashboard, weekly settlements, admin support chat.

For Admin

Approve operators, manage orders, view analytics, process settlements, monitor compliance.

A R30+ Billion Addressable Market

South Africa's LPG market is large, growing, and ripe for digital disruption. Load shedding and rising electricity costs accelerate LPG adoption.

Digitally

Ø<ß1 Key Growth Drivers

Load Shedding

Chronic electricity instability pushes households to adopt LPG as a reliable alternative.

Rising Electricity Costs

Eskom tariff increases of 12–18% annually make LPG increasingly cost-competitive.

Smartphone Penetration

Over 90% of SA adults have smartphones, enabling app-based ordering at scale.

Multiple Revenue Streams

Ø=ÜÊ Revenue Breakdown

Service Fee	R29 per order
Processing Fee	2.6% + 15% VAT on card
Subscription	R39/month per operator

Margin Revenue after operator commission

Ø=Ü° Operator Commission

CYLINDER	PRICE	COMMISSION
9kg	R262	R80
19kg	R552	R200
48kg	R1,345	R500

Ø=Üµ Unit Economics (19kg Order)

Customer Pays	R552
Operator Commission	-R200
Gas Supply Cost	-R280
Service Fee Retained	+R29
Card Processing	-R16.50
Gross Margin	R84.50

Ø=Ü€ Scale Projection

At 100 orders/day average:

Daily Revenue	~R8,450
Monthly Revenue	~R253,500
Annual Revenue	~R3.04M

Our Unfair Advantages

%ĩ Compliance-First Positioning

Only licensed operators with dangerous goods permits. Trust moat competitors cannot replicate.

%ĩ Full-Stack PWA

No app store dependency. Works on any device with push, offline support, installability.

%ĩ Card-Only Payments

Every transaction traceable. Enables trust, settlements, and future financial products.

%ĩ Data Advantage

Real-time demand data enables dynamic pricing, forecasting, and supply chain optimisation.

%ĩ Regulatory Barrier to Entry

LPG transport heavily regulated. Compliance built into our onboarding by design.

%ĩ Network Effects

More operators = faster delivery = more customers. Self-reinforcing flywheel.

%ĩ Proximity-Based Matching

Haversine algorithm matches nearest operator within 10km. Efficient logistics.

%ĩ First-Mover in Verified LPG

No other SA platform combines compliance, tracking, and digital payments for LPG.

What We've Built So Far

'

Full MVP
Live & Deployed

Ø=Üe

3 User Roles
Customer / Operator / Admin

Ø=Ü³

Yoco Payments
Integrated

Ø=ÜÍ

Live GPS
Tracking Active

' Product Features Completed

Ø=Üd Customer App

Product browsing, card checkout, real-time delivery tracking, push notifications, in-app chat, order history, email receipts

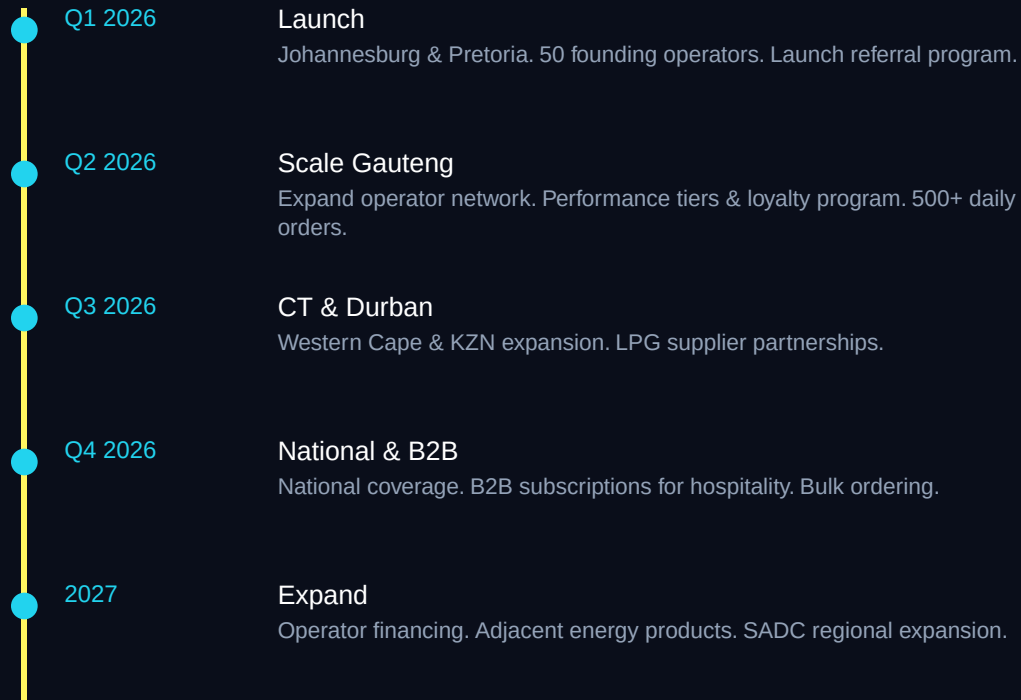

Ø=þš Operator Dashboard

Go online/offline, accept orders, GPS navigation, earnings dashboard, weekly settlement history, admin support chat

Ø=þà Admin Panel

Operator approval workflow, order management, settlement processing, analytics, referral program, launch campaign tools

The Path to Market Leadership

Ø<ß Year 1 Targets

Licensed Operators	200+
Registered Customers	25,000+
Daily Orders	500+
Cities Active	5+
Annual GMV	R100M+

Ø=Ü Future Revenue Streams

- %, Operator Financing — Working capital loans
- %, B2B Subscriptions — Recurring delivery contracts
- %, Advertising — Promoted supplier listings
- %, Certification — Operator training services
